42. To see if the town will agree to participate in the National Flooding Insurance Program by directing the Selectmen to complete the eligibility application and submit the required information to the Federal Insurance Administration.

43. Resolution A:

WHEREAS, certain areas of Gilmanton are subject to periodic flooding from streams, rivers, lakes, etc., causing serious damage to properties within these areas; and

WHEREAS, relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of this Town Meeting to require the recognition and evaluation of flood hazards in all official actions relating to land use in the floodplain areas having special flood hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to New Hampshire RSA Chapters 31, 36, 156 and 156A.

NOW, THEREFORE, BE IT RESOLVED, that this Town Meeting hereby:

1. Assures the Federal Insurance Administration that it intends to enact and maintain in force for those areas having defined flood hazards, adequate land use and control measures with effective enforcement provisions consistent with the Criteria set forth in Section 1910 of the National Flood Insurance Program Regulations; and

2. Vests the Planning Board with the responsibility, authority, and means to:

(a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites.

(d) Submit on the anniversary date of the community's initial eligibility an annual report to the Administrator on the progress made during the past year within the community in the development and implementation of floodplain management measures.

3. Appoints the Building Inspector to maintain for public inspection and to furnish upon request a record of elevations (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures located in the special flood hazard areas. If the lowest floor is below grade on one or more sides, the elevation of the floor immediately above must also be recorded.

4. Intends to take such other official action within its powers as may be reasonably necessary to carry out the objectives of the program.

Resolution B-1

WHEREAS, the Town of Gilmanton has adopted and is enforcing Building Regulations and Subdivision Regulations; and

WHEREAS, Section 5 of the Building Code prohibits any person, firm, or corporation from constructing, adding to, altering, removing or demolishing, or to commencing of the same, of any building or structure without first obtaining a separate building permit for each building or structure from the Building Inspector; and

WHEREAS, the Building Inspector must examine all plans and specifications for the proposed construction when application is made to him for a building permit.

NOW, THEREFORE, BE IT ENACTED by the Town Meeting of Gilmanton as follows:

1. That the Planning Board amend their Subdivision Regulations pertaining to the flood hazard area to assure that (a) all such proposals are consistent with the need to minimize flood damage, (b) all public utilities and facilities, such as sewer, gas, electrical, and water systems are located, elevated and constructed to minimize or eliminate flood damage, and (c) adequate drainage is provided so as to reduce exposure to flood hazards; and

2. Require that new or replacement water supply systems and/or sanitary sewage systems be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and require on-site waste disposal systems to be located so as to avoid impairment of them or contamination from them during flooding, pursuant to N.H. RSA 36:21.

3. That the Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a location that has a flood hazard, any proposed new construction or substantial improvement (including prefabricated and mobile homes) must

(a) be designed (or modified) and anchored to prevent floatation, collapse, or lateral movement of the structure, (b) use construction materials and utility equipment that are resistant to flood damage, and (c) use construction methods and practices that will minimize flood damage.

Amounts enclosed in parentheses are items approved by the Budget Committee.

Given under our hands and seal, this ninth day of February, in the year of our Lord nineteen hundred and seventy-six.

A listing of individual perpetual care accounts is not included in this report, as has been the custom in the past. However, records of care fund accounts and their existing balances will be furnished, upon request, by the Trustees. A 1975 Amendment to N.H. R.S.A. 31:33 provides that the Trustees shall not print in the annual report of the Town the "trust funds created for the care of cemeteries and burial lots, except that in the year in which the Town accepts gifts, legacies and devises for such purposes, the Trustees shall print the names of the donors and the value of such gifts, legacies and devises at the time of donation."

The following new perpetual care funds were accepted by the Town in the year 1975:

Smith Meeting House Cemetery:

Jan. 27 — Kenneth Nutter-Bowdoin & General Care	\$300.00
May 19 — Edward M. Kuiper & General Care	200.00

1. a. This department was challenged by only one major structural fire this past year. That fire was of the Kelly residence, Gale School House Road, off the Middle Route. On Oct. 31st, in spite of back-up support from the Gilmanton Corner Fire Department and the support of several fire departments of the Lakes Region Mutual Fire Aid Association this fire resulted in a total loss because of reasons beyond the control of the fire fighting personnel. Although it is small solace to a family sustaining such a tragic loss many lessons were learned from this operation. The entire action of fighting this fire was the major subject of a very intensive critique at the next training session of the department.

b. We have continued our support of the Lakes Region Mutual Fire Aid Association and have continued to receive the back-up support of that organization. The continued service of the Lakes Region Central Dispatch is of incalculable value. Too much cannot be said as to the value of these two outstanding organizations in providing firefighting and communication services to the many towns in the system. A reasonable and reliable estimate would place the replacement value of fire fighting apparatus and radio communications equipment reporting to this town on a Mutual Aid call at one half a million dollars; all in the hands of competent, well trained and dedicated personnel.

c. We are very proud of our tape recorded "response time" which is maintained by the LRC Dispatch. "Recorded response time" is the lapsed time between the time when LRCD' places the radio toned alarm to all GIW receivers (40 locations) and the time when our personnel report back to LRCD' that they are "rolling", meaning enroute to the point of the alarm. Average "response time" on all calls received by this department during 1975 has been 2.42 minutes, which figure is recognized as superior for volunteer fire departments and could be a challenge to many city, paid, fire departments.

d. Our response capability has been enhanced during the past year by the purchase of five additional Reach Electronics, Inc. pocket size radio receivers toned to our signal with the Lakes Region Central Dispatch. These receivers have been distributed to key personnel of the department whose working hours and duties take them away from the practical use of either fixed or mobile Plectron radio receivers. We now have a total of seven pocket size radio receivers.

2. In addition to the five radio receivers referred to above the following major items of new equipment have been purchased:

300 feet 4 inch Hose	\$888.00
1 each Koehler single mobile charger	45.00
1 each Incoming gated pressure valve.	262.00

plus several items of lesser value: ie: small tools, mittens, poly-vinal plastic for salvage covers, etc.

3. Training has continued to be a constant on-going program with many man hours having been devoted thereto. Selected motion picture films and film strips have been used together with several black-board exercises. For this purpose an imaginary fire at a selected property site is programmed with all members present contributing to the in-put of weather conditions, (rain, snow, sunshine, wind direction and velocity, etc.) available water, need for mutual aid, personnel available, point of attack of the fire, etc., etc. Pre-planning to fight a fire at many of our local properties has been handled in this manner. Ten members of the department attended the weekend Fire School operated by the Lakes Region Mutual Fire Aid Association June 14-15, '75.

4. We are pleased to report continued and steady progress toward the completion of the several finishing touches to our new fire station. The small kitchenette on the second floor is approximately 100% complete; much improvement has been made in the grading, drainage and landscaping of our grounds. We do accept our responsibility that our property be representative of our community and a credit thereto.

GILMANTON CORNER FIRE DEPARTMENT REPORT 1975

The past year has shown a great improvement in the fire services of our department. We have had new members join, the interest has been growing steadily and we hope it continues to grow in the future. The services of the department are growing greater each year with more buildings being built and more year round residents in the lake areas.

The purchase of a new fire truck has been studied a great deal this past year. The fire commissioners have spent much time on the study of fire apparatus along with the fire department members. We came up with a set of specifications we feel will serve our fire fighting needs in the community and keep in good standings with the Mutual Aid System which is growing bigger each year.

The year of 1975 was the busiest year our department has ever had. We had a total of 115 calls for a number of reasons, from fires to false alarms. We had 30 fires of different natures, 28 mutual aid calls, 20 training, 27 special service, 3 false alarms, 1 resuscitator call and 6 rescue.

The members of the department did different repair jobs on the station and are in the process of having a new cement floor put in the old part of the station along with two new doors. The roof was shingled and the building was painted this past year. We are now working on putting another tank truck in service to replace our old Federal which is getting to the point where it is beyond repair.

Your support at town meeting this year and in other fire department activities will be greatly appreciated.

Respectfully submitted

DONALD C. ALDEN, Sheriff

REPORT TO TOWNS

Upon the recommendation of town selectmen and city councils, the Division of Forests and Lands appoints a forest fire warden and several deputy forest fire wardens in each town and city every three years. The town or city warden is responsible for maintaining a force of men and adequate equipment to suppress any wildfire that occurs in his town or city during his term of appointment. The fire warden must authorize all open burning when the ground is not covered with snow. No open fires can be authorized between 9 a.m. and 5 p.m., unless it is raining, without the additional permission of the state district fire chief.

Any person wishing to kindle an open fire when the ground is not covered with snow must first obtain the written permission of the forest fire warden. Camp and cooking fires also require the warden's permission.

The Division of Forests and Lands, through its Forest Fire Service, assists all cities and towns in meeting these requirements by training the warden and deputy forces in wildfire suppression tactics, making hand tool suppression equipment available at fifty percent of cost, supplying pieces of Federal excess property for use as fire attack vehicles and sharing up to fifty percent of the cost of wildfire suppression costs.

Wildfire prevention is also a joint state, city or town program. Smokey Bear is available from the Forest Fire Service for local fire prevention programs. Posters and Junior Ranger kits are available for distribution by local fire departments upon request to the Forest Fire Service. Each forest fire warden is expected to carry on a continuous wildfire prevention program within his town or city.

STATE REPRESENTATIVE'S REPORT

Gilmanton

This legislative term so far has been the busiest of all my legislative years. In January, I was elected Speaker of the House by my fellow legislators. The last time the Speaker of the House came from Gilmanton, was in 1837, Mr. Ira A. Eastman. Along with that honor, come many responsibilities of administrating the 400 member House of Representatives.

All in all, it has been a productive year for the New Hampshire Legislature and the State in general as we have taken many major steps in improving the operation of our legislature and I am pleased to have had the opportunity to be part of this progress. I feel that the people of the State will be benefited by our internal changes.

During the 1975 session, I sponsored a number of bills dealing with a variety of important subjects, facing our community and our state.

Two bills that were passed into law of particular interest to our district: House Bill 376 has authorized the State of New Hampshire, through the Water Resources to acquire Shell Camp Pond Dam in Gilmanton and appropriates \$42,000 for the construction of a new dam. This was accomplished without draining the general fund by the appropriation from the special boat fund, from which power boat owners pay for the administration and maintenance of state dams on public waters. It is my hope that construction can start late next summer or early fall. The request for the construction of this dam had strong support from the landowners around the pond as well as many people within the community. I wish to take this opportunity to thank them for their support through the legislative process. When the construction of the dam is complete it will stabilize the level of the water and provide for safer boating.

Another related bill that became law in the 1975 session, was one that recognized that noise pollution threatened some of our smaller lakes and ponds within our district as well as the potential damage from oil slicks from certain types of boats. House Bill 826 limited the use of petroleum powered motor boats with more than five horsepower on Lougee Pond in Barnstead. Lougee Pond's forty-five acres surrounded by a mile of undeveloped shoreline is just the type of pond that we would like to preserve for the enjoyment of fishing and canoeing enthusiasts. This Bill was introduced with the cooperation of the members of the Conservation Commission and had strong support by the Barnstead residents.

As always, not all legislation introduced passes. I am sorry to say one of my bills, which would help prevent the increased growth of algae on our lakes and ponds, was not passed due to the lack of necessary funds. I feel so strongly about the prevention of pollution in our bodies of water throughout the state, that hopefully I will be able to try again to institute a strong program of pollution control throughout the state using the latest engineering and chemical techniques to prevent pollution.

There are many other bills which are now law that affect the entire state of New Hampshire as well as this district. Many which I think will help to make a better way of life in New Hampshire.

In all, there were 1374 bills filed during the regular session of the New Hampshire General Court, which makes it impossible to report on all that occurred in this written report. For this reason, I am grateful for the many opportunities to speak before civic and private organizations within the district as well as students in our elementary and high schools to explain the operation of the legislature and what its decisions have been. I see this as an important part, both in our school system, and a function of the office I was elected to and look forward to continuing this reporting method as well as articles in local newspapers.

STATE FUNDS

While much of state funding is intertwined with local and federal government it makes it almost impossible to sort out the effect of the state budget. However, through the New Hampshire sweepstakes program which was established in 1964, more than \$25,000 was returned to our district schools. During the fiscal year of 1975, the Alton school district received \$10,266.28, Barnstead \$8,566.68 and Gilmanton \$6,791.05. While this might represent a small percentage of total costs for educational expenses. It is a good approach to allow the local government to decide how they want to spend certain state funds.

Other funds are restricted by their use such as the highway funds which are returned to this district by the expenditure of certain construction. As a direct result of constituent concern and suggestions, I am pleased to report the following highway projects within the district for FY 1975 and those proposed. In Alton - a one mile betterment project, the Alton-Gilford town line, \$50,000 in state funds. In Barnstead - Route 28 repairs to bridge at Garland Road, due to damage by accident, \$30,000. Proposed construction Route 28 Pittsfield-Barnstead, reconstruction from end of Pittsfield Bypass north 1½ miles to prior Barnstead betterment project. Proposed to begin in 1979 - \$1,000,000,000. In Gilmanton - Route 107, Gilmanton-Belmont, upgrading 25 foot pavement and shoulders for 1.6 miles \$250,000. Route 107, Gilmanton, betterment project to improve alignment, drainage, base and surface on Munsey Hill, south end. One-half mile \$25,000. Route 107 in Gilmanton, surface repair 1.71 miles from Loudon town line to Belmont town line \$15,000.

This list does not include many minor projects within the district as requested by your Representative as a result of a constituent request.

The job of State Representative is varied and not just law-making, but includes responding to the various requests and suggestions made by my constituents. I am happy to report that many of the people from this district visited the New Hampshire Legislature and the Speaker's Office and attended many committee hearings as well as making telephone contacts asking for my support for a particular bill or position. This is the kind of citizen involvement that helped pass several pieces of legislation directly affecting our district.

With this in mind, I will continue to be available to all town officials and town agencies to

explain new legislation or to act as a liaison between town and state agencies on problems that affect our towns within the district. Your suggestions or opinions, whether they come from town officials or private citizens, are always helpful to those in elected office. Your interests and opinions are necessary if we are to effectively represent you and I look forward to the continuing exchange of ideas that is necessary.

Because of my many official and business activities, you would find it best to contact me by calling my home in the evenings and on weekends at 267-8151 or during the week at 271-3661. For those who do not live in the toll free district of Concord, use 1-800-562-6236. Every effort will be made to respond to your telephone request.

Respectfully submitted,

GEORGE B. ROBERTS, JR.

**RESOLUTION OF THE MEETING
OF THE TOWN OF GILMANTON**

WHEREAS THE PUBLIC SERVICE COMPANY of NEW HAMPSHIRE proposes to construct and operate a 115 KV power transmission line between the site of its substation in Deerfield, New Hampshire and its substation in Laconia, New Hampshire;

And WHEREAS due consideration must be given by the New Hampshire Public Utilities Commission and the Site Evaluation Committee established pursuant to RSA Ch. 162-F to the Views of the legislative body of each of the communities through which the route of such a power transmission line will pass;

And WHEREAS the public interest is best served by the participation of each local community in those aspects of the routing of such power transmission lines that present environmental, economic and technical issues of immediate local impact;

And WHEREAS the proposed alternate route of said 115 KV power transmission line through the Town of Gilmanton raises serious concern for the preservation of the esthetic quality of the natural environment adjoining the proposed alternate route, for the impact of the proposed alternate route on the historic character of the Town of Gilmanton, and for its potential threat to the public health and welfare

BE IT RESOLVED, therefore, by the Meeting of the Town of Gilmanton: That is the sense of the people gathered at this Town Meeting that Proposed Alternate Route "B" should not be selected for the routing of any power transmission lines associated with electrical generating facilities lying outside the borders of this community.

TO THE VOTERS OF THE TOWN OF GILMANTON:

At a meeting of the First Congregational Society of Gilmanton, held on October 7, 1974, the Society requested the Executive Committee of the said society to see what could be done to establish a historical district to protect and preserve the view and tranquility of the property of the said society, generally known as Smith Meeting House, and the nearby Smith Meeting House Cemetery. It also instructed said committee to vote "yes" for the Church Society for a historical district, including the church area within the district.

As a result of the above mentioned meeting the Executive Committee has attempted to contact all the land owners in the proposed district and have found the citizens, who live within the proposed district, share the church member's concern regarding the proposed high power lines that may threaten the view and any other industry that might in the future harm the view or tranquility of this historical site. A great majority of these concerned landowners have asked that their property be included within the historical district.

Prompt action is necessary if this historical area is to be protected as any delay may well result in harm to an area that over the years has offered great enjoyment to the town's people in the form of Gilmanton's Old Home Day, to groups as the Gilmanton Corner Fire Department's Clam Bake, the Timber Growers Association, the Gilmanton Snowmobile Club, the Lake Region Equestrian Patrol and others as well as the lot owners, and many folks who visit the Smith Meeting House Cemetery annually. The Executive Committee therefor respectfully requests that the voters of Gilmanton hear all arguments for or against the establishment of the historical district as placed in the Town Warrant, Article 39 before it acts to establish or reject the article, or allows any motion to table this article.

Executive Committee of the
First Congregational Society of
Gilmanton.

The board is fortunate to report that Mrs. Ella J. Regan has been providing staff secretarial service since early spring. Mrs. Regan has attended all meetings for the purpose of recording and preparing meeting minutes.

Planning Board Comment

The board has carefully reviewed state planning legislation pertaining to abutters hearings prior to subdivision approval. The legislation states that an abutters hearing shall be afforded, in all cases, before the planning board makes its decision. Since this review, the board has adopted this policy to protect the subdivider as well as abutting landowners and the future land purchaser.

Roads that are not maintained by the Town, but are still in Town ownership are designated by statute as Class 6 roads. Upgrading of these roads for two-way year-round travel is sometimes a costly undertaking. Recent court decisions (in other N.H. communities) have upheld a community's right to require that reasonable upgrading costs be borne by the party specifically benefitting from their improvement, thus relieving the municipality from costly road construction obligations. Class 6 roads are frequently associated with Gilmanton subdivisions. Decisions such as these assist in keeping town road costs to a minimum.

The board received the resignation of Robert Kent in June of 1975 after nine years of dedicated service; first as a member, then as board chairman. Bob, during his tenure, was invaluable for his engineering knowledge and sound administrative decisions. The board will miss his abilities and wishes the Kents a successful and happy future.

The Town of Gilmanton has been asked to join the Lakes Region Planning Commission with offices located in Meredith, N.H. The regional office has 16 employees working to assist communities with water quality problems, solidwaste disposal, transportation needs, recreation needs, and local growth problems. In the last five years Gilmanton's year-round population has grown by 391 and now stands this year at 1,401 persons according to state estimates.

The board wishes to remind landowners that the separation of one or more lots away from a larger parcel constitutes a subdivision in Gilmanton. If this is to occur, the subdivider should contact the Planning Board for approval guidelines.

The Planning Board meets on the second Thursday evening of every month at 8:00 p.m. in the Selectmen's Office Town Hall, G.I.W.

Gentlemen:

Attached, you will find a copy of the 1975 Report on Towns which has just been completed.

You will note, from Gilmanton, we received 41 dogs and 38 cats for a total of 79 animals. Of these, your animal control officer left 5 stray dogs. The society received 7 cruelty complaints during 1975 and all were investigated but non were of a serious nature.

If we can be of any service or provide additional information, please call 524-2610.

Sincerely yours,
FRITZ T. SABBOW
Executive Director

BICENTENNIAL COMMITTEE

The Efforts of the Gilmanton Bicentennial Committee have resulted in Gilmanton joining a group of other New Hampshire towns in being designated as a Bicentennial Community. Congratulations and good wishes have been received from Senators McIntyre and Durkin and Rep. Cleveland. An appropriate ceremony is being arranged at which New Hampshire American Revolution Bicentennial Commission representatives and others will be here to present the Certificate and the special Bicentennial Flag to be flown over the town. All will be invited. Some Gilmanton Committee projects are the landscaping of the Elementary School grounds and the starting of a tree nursery by pupils, the publication of a Bicentennial Cook Book by the P.T.A., painting the old Corner Library by the Junior Historical Society, a Bicentennial Calendar, dating old houses in the Historic District, the writing of the histories of the Centre, United and Lower Gilmanton Churches, the annual Fourth of July celebration and parade and the Old Home Day festivities to be dedicated to Bicentennial themes throughout, continued efforts toward restoration of the old Academy and Historic Smith Meeting House and the placing of road signs at town entrances. Some few days are being planned for the summer when public buildings, churches and historic sites, etc., will be open with colonial-costumed guides to entertain visitors. Details are being arranged.

Members of the Gilmanton Bicentennial Committee are Harold Brinig, Chairman, Mary Brinig, Edward Jerome, Jack Schaffnit, Ray Scheublin, James Beck, Col. & Mrs. Edgar Stubbs, Mr. & Mrs. George Bingham, Mr. & Mrs. Joseph McGonagle, George Roberts, Jr., Mr. & Mrs. George Page, Darryl Thompson.

There were 22,226 lunches with milk served, an additional 8,358 half pints of milk were used by students as a charge of 5 cents under the Special Milk Program. Lunches were served on 175 days with an average daily participation of 127. Each lunch cost an average of 72 cents to serve. This does not include the value of government food used. The program utilized about \$2,303.00 (wholesale value) in government donated foods.

With the increased costs of food and milk there is a strong possibility that we will have to

increase our lunch and milk prices. The kitchen staff works very hard to control expenses and have certainly been responsible for the success of this program.

To the People of the Gilmanton School District:

This is the third time I have had the pleasure of briefly reporting to you on the progress of our elementary school during the past year.

It has been a fruitful year in every way. New programs have been carefully tried out and incorporated into the basic educational framework of the school. Many of our programs have been deeply enriched by the bicentennial era we are living in. It will be generations before we once again have the attention of our entire society centered upon the brave women and men who founded this republic and the principles for which they struggled.

Our bicentennial trees planted last April in front of the school may well be viewed by future generations of Gilmanton children as a symbol of our faith in tomorrow. The "shake-down cruise" of our AREA High School joint effort with Gilford is bearing fruit. The Gilford Middle/High School is one of the finest in the state. Gilmanton costs per pupil have declined steadily since the opening of that school and we expect to see lower tuition levels in the late 1970's, unless our town experiences a sharp increase in pupil population.

My very able staff join me in expressing appreciation for the fine support we have always enjoyed from citizens, budget committee members, selectmen and school board. You may be assured that we will continue to labor diligently to bring to Gilmanton girls and boys the best possible educational program.

Respectfully submitted,

ROBERT W. MUSGROVE
